

YOU ARE INVITED TO...

6th Annual International Languages Expo For Youth at ASU Preparatory Academy Phoenix

Dear Arizona Community Members:

The International School of Arizona and ASU Preparatory Academy are hosting a community event promoting early second language learning on **Saturday, April 14, 2012 at ASU Preparatory Academy in Phoenix**. We invite you to join us as we celebrate the accomplishments of the youth in our community who are taking on the challenge of learning a second language and preparing to become citizens of the world.

EVENT ACTIVITIES

The event will consist of individual and group recitals in a variety of foreign languages, a guest speaker, international language book fair, a Children's Art Contest, children's story time sessions, a canned food drive benefiting St. Mary's Food Bank, booths with information about a variety of language programs around the Valley, refreshments by Pita Jungle and much more!

EVENT OBJECTIVE

The purpose of this multicultural educational event is to promote early foreign language learning and community awareness as well as tolerance of diverse cultural groups in our local and broader communities. Community members will connect through activities focused on the appreciation of other languages while celebrating Valley children's accomplishments. This event will also provide residents of the Phoenix metro area the opportunity to find out about a variety of children's language programs across the Valley.

PARTICIPANTS

- Children who are learning a second language and can showcase their accomplishments by reciting a poem or rhyme to the audience.
- Greater Phoenix metro families who are interested in finding out about a variety of language programs around the Valley.
- Cultural, educational or business entities who provide language classes to children and would like to gain exposure for programs by having their students participate and by setting up an information booth.

Thank you for considering this opportunity to work with our schools to better serve Valley students by providing them with resources and a forum to engage in activities that will help inspire lifelong learning and an appreciation of cultural differences.
